

Pumpkin

Starlight Mints

Pumpkin
You're hollow within
More how I'm too slowly
Let their harm
Give us some, it's sad until
Like flowers untamed
Shine out ends
I find what will make him love me
Life is our find
Hollow is he, I can't breathe and I can't see
MTV moves too fast, I refuse to understand
You go your way and I'll see mine, feels like wasted time
And it feels like I must be blind
How do you like yourself?
You don't know yourself, to a hollow kind, don't mind
Love is some of you
Don't dabble in fall of failure
How, how bad, ooh, ooh, I smell of her and I fail to be
Well anyway, well anyway, well anyway, see how high
Go on, I can't see, and I can't breathe
I can't see, and I can't breathe
I can't see, and I can't breathe
I can't see, and I can't breathe
Well anyway, well anyway
