

Episodes of Mania

Circle II Circle

She died in a firestorm
It echoes from the street
A wasted life
Full of promise ending
Im left to wonder
How it might have been
No one knows
How this fuels my hatred
In a maze of lies
Tearing down inside
And I know
This time they cannot hide
No more rides on the manic sea
I dont care what tomorrow may bring
No more spirals down an endless dream
My lifes changing
But Im living in your memory
Light comes into view
The sun breaks the horizon
Spend the hours thinking about you
The touch of your skin
The way you drew me in
Dont know if I could ever
Feel the same again
Through the darkest night
Through their sinister eyes
They will see
Their end has now arrived
No more rides on the manic sea
I dont care what the darkness may bring
No more silence I have fled the scene
Got my eyes
On the road thats now ahead of me
Now I wonder
What brought this to an end
Did they receive the message I sent
Shes now in a better place
Leaving us to trace
A road that leads
To echoes that she hides away
In a maze of lies
Tearing down inside
And I know
This time they cannot hide
No more rides on the manic sea
I dont care what tomorrow may bring
No more spirals down an endless dream

My lifes changing
But Im living in your memory
