Creeps Me Out

Ima Robot

14 people in the club
Ima Robot with no love?
Backstage she came rollin' up
She said, "Do anything and I love ya"Well, there must be a mistake, girl, you're way too hot
You could make a million dollars with the face you got
Don't you know my last number was a flop?
She said, "Do anything and I love ya"Well, I don't do love letters
I'm no good with flowers
If I forget your birthday
Will you still love me?What are the odds of
One true love?
You say, "High"
But I have my doubtsWhat are the odds of
Me letting you down?
Please don't cry, it's just your love
It creeps me outNow she can't stop from lovin' me
Makin' me food, touchin' me
I told her, "I ain't got money on me"
She said, "Do anything and I love ya"Yeah, I know your mom makes fun of me
And you caught your best friend under me
I guess this means you're done with me
She said, "Do anything and I love ya"Well, I go out all hours
You get strange phone calls
I'm so A.D.D. with you
But you still love meWhat are the odds of
One true love?
You say, "High"
But I have my doubtsWhat are the odds of
Me letting you down?
Please don't cry, it's just your love
It creeps me outYou're creeping me outShe don't screw my friends
And she cleans up my house
All of this love, girl, is creeping me outShe don't screw my friends
And she cleans up my house
All of this love, girl, is creeping me outWhat are the odds of
One true love?
You say, "High"
But I have my doubtsWhat are the odds of
Me letting you down?

Please don't cry, it's just your love
It creeps me outYou're creeping me out
You're creeping me out
Girl, you're creeping me out
Girl, you creep me out
