

San Francisco Days

[Chris Isaak](#)

I still love you, I still want you
I still need you, don't hang up and say goodbye Walking on the beach last night, hoping things would be all right
My baby lying on her bed, it's you I saw instead
Thinking of the one I love, you're the one I'm thinking of
San Francisco days, San Francisco nights I met a girl in Mexico I should of told her then I know
That I still think of you, we never will be through
San Francisco days, San Francisco nights
San Francisco days, San Francisco nights I still love you, I still want you
I still need you, don't hang up and say goodbye Walking down to market street feeling my heart skip a beat
To see someone who looks like you, I guess that I'm not through
Dreaming of the one I love, you know what I'm dreaming of
San Francisco days, San Francisco nights I'm heading for that golden gate hoping I won't be too late
To find the one that I still love
It's you I'm dreaming of, San Francisco nights San Francisco days, San Francisco nights
San Francisco days, San Francisco nights
San Francisco
