

One Tribe

[W.A.S.P.](#)

Gimme peace, gimme hope
Gimme love, love
Just one life to be free
Just one world live in peace
One love, love Cause in a sea, feed my soul
Save one world, save us all
One love, love Lift my hands, raise my heart
I touch the sky, the face of God
Rain all your love down on us all Show me peace, show me love
I'll still see only one
One love, love
