

# Roller Rink

Kelis

Ay yo while I dream about Fortune 500 man  
Hundred grand bracelets  
The diamonds in my ear only cost as much as a facelift  
When the listeners picture this  
They gon' say shit  
Me and you fucking in the window of my spaceship  
High like fuck  
To all the bitches that I might fuck  
Get to see they would only fuck my life up  
The flyest couple killin' em subtle  
Delivering our first born on a NASA space shuttle  
Come on Have you ever thought there might be something out there?  
Far out, way out  
Would you think those movies are insinuating?  
Look out, look out  
Do you think you'd even know one if you saw one?  
Watch out, watch out  
If you think the government just don't do nothing  
Watch out, watch out The roller rink, the roller rink  
Just skate away you don't need to think  
No cars and minks, no Gucci links  
No need for shrinks, just roll the rink  
The roller rink, the roller rink  
Just skate away you don't need to think  
No cars and minks, no Gucci links  
No need for a shrink If you see what's coming our way then get ready  
Watch out, watch out  
Ain't gonna be no one in bed to put your hands up  
No doubt, look out  
Better hide your babies and all of your family  
Beware, look out  
If you think the government just don't do nothing  
Better watch out, watch out The roller rink, the roller rink  
Just skate away you don't need to think  
No cars and minks, no Gucci links  
No need for shrinks, just roll the rink  
The roller rink, the roller rink  
Just skate away you don't need to think  
No cars and minks, no Gucci links

No need for a shrinkThe roller rink, the roller rink  
 Just skate away you don't need to think  
 No cars and minks, no Gucci links  
 No need for shrinks, just roll the rink  
 The roller rink, the roller rink  
 Just skate away you don't need to think  
 No cars and minks, no Gucci links  
 No need for a shrinkAy yo, ay yo the whole world gets hot  
 When they hear this Neptune talk  
 N.E.R.D. we levitate when we moon walk  
 Ain't shit stoppin', my laser clip dropping  
 Pullin' up in my intersects with my bitch robbing  
 Star Track we walk around with rockets in our pockets  
 Make my fucking dick hard the way my glock spit  
 Remind me of last night got my neck and cock licked  
 Day dream, rude awakening she smoking chocolate  
 Jesus, SimonLove roaming like Caesar's time and  
 Yo Kelis you Arabian diamond  
 If I'm the sun and your a diamond  
 Baby we be shining  
 And all my hoes gone  
 You blew them away and the ozone  
 So hot and so rich feeling this ghost tone  
 Sol nigga and sol bitch  
 Accept our foes is gone  
 The world smells is fishy  
 But I smell nothing when your lips kissed me  
 Guardian now, fuck is he?  
 Don't dare but love me  
 Karats stuffed  
 Straight up beware of us  
 Body in the truck odor it's just scared of us  
 The devil's mad and ain't trying to see the Armageddon  
 So I name our first daughter Nazareth  
 My first son Heaven  
 Yeah the world is real crazy, huh  
 And ya don't stop, uh  
 Star Track, Kelis, that's how we do it  
 Come on peace, come onThe roller rink, the roller rink  
 Just skate away you don't need to think  
 No cars and minks, no Gucci links  
 No need for shrinks, just roll the rink  
 The roller rink, the roller rink  
 Just skate away you don't need to think  
 No cars and minks, no Gucci links

No need for a shrinkThe roller rink, the roller rink  
Just skate away you don't need to think  
No cars and minks, no Gucci links  
No need for shrinks, just roll the rink  
The roller rink, the roller rink  
Just skate away you don't need to think  
No cars and minks, no Gucci links  
No need for a shrink
