

# Miracle (Worldwide Version)

## Audio Adrenaline

I am free  
For the first time left my fears behind  
In front of me  
Is the open sky  
I'm taller than trees  
I can see further than before  
Every thing's different now  
Now that you've ruined my life You took my dreams  
And stole my schemes  
And turned my life upside down  
You took my heart  
Stole every part  
And made it a miracle Now I can sing  
Sing a new song  
My burdens gone  
You gave me all the words and melodies  
Now I can be at your feet  
Your place for me  
Every thing's beautiful  
Now that you've ruined my life You took my dreams  
And stole my schemes  
And turned my life upside down  
You took my heart  
Stole every part  
And made it a miracle I'm walk away  
And tonight I'm saved  
In your arms  
I'm singing of  
How you made me a miracle I'm taller than trees  
I can see further than before  
Every thing's different now You took my dreams  
And stole my schemes  
And turned my life upside down  
You took my heart  
Stole every part  
And made it a miracle You took my dreams  
And stole my schemes  
And turned my life upside down  
You took my heart

Stole every part  
And made it a miracleMade it a miracle  
Made it a miracle
