# The Creature Crawling

## Frank Black

The creature crawling, don't know when he'll arrive
Don't know if creature is dead or alive
All of God's creatures have the will to surviveDid you know about that?
Did you know about that?
Did you know about all that?
The creature crawling, the creature crawlingThe creature crawling and he's comin' up the road
He's crawling over to your area code
Crawling through the grass of your little abodeDid you know about that?
Hey, did you know about that?
Did you know about all that?
Whatcha gonna say? Whatcha gonna do?What goes around it comes around
One fine day, look around
There will be nothing but youThe creature crawling, the creature crawling
The creature crawling, the creature crawling
