# Ready For It (feat. St. Lucia)

## RAC

[Verse 1]
I fell asleep with the enemy
Can it go back to how it used to be?
Your shadow hung in my memory
A hand to hold, a picture to believe
And I fall into the night again[Chorus: St. Lucia]
It took so long to be on my own
When the morning comes I hope I'm ready for it
And the night won't wake till we get back home
When the morning comes I hope we're ready for it[Verse 2]
You come to me as the snow begins
The thunder rolls, the rain, it's still, it seems
But I fell into the night again[Chorus: St. Lucia]
It took so long to be on my own
When the morning comes I hope I'm ready for it
And the night won't wait till we get back home
When the morning comes I hope we're ready for it
