

You're Gonna Be the One Who's Sorry

Nerf Herder

Got a new job at a radio station
But that won't help you at all
40,000 watts of maximum rock
But that won't help you at all You think you've got everything
But I've got news for you You're gonna be the one who's sorry
You're gonna be the one who's sorry
You're gonna be the one who's sorry You got a new girlfriend, a bitchin' new girlfriend
But she won't help you at all
Certified with the scene, she's a local rock queen
But that won't help you at all You think that you've got it made
But you've made one mistake You're gonna be the one who's sorry
You're gonna be the one who's sorry
You're gonna be the one who's sorry The free paper calls you a local celebrity
But that won't help you at all
You're such a big, big deal, you get in the clubs for free
But that won't help you at all You think you've got everything
But I've got news for you You're gonna be the one who's sorry
You're gonna be the one who's sorry
You're gonna be the one who's sorry
