

Piranha (Live At Wacken 2008)

Exodus

Slicing jaws a way of life
Brought up to waste mankind
Loki's pets his little children

Deadly every timeTrapped in swamps by gates of hellDon't ever: let them out

For if you do and they escape

You'll fight a bloody boutPiranha kill in a pack - you'll run

Piranha start to attack - you'll done

If you think you can beat - deadly school

If you think you can live - you're a foolGates of hell are old and cracked

They tumble and they fall

Out rush a bloody wall of death

To kill anything at all

Their sole mission is to kill

Strip your bones and flesh

Rip out your eyes tear off your face

An agonizing deathPiranha kill in a pack - you'll run

Piranha start to attack - you're done

If you think you can beat - deadly school

If you think you can live - you're a fool
