

# Before It Explodes

## Charice

It's not a question of love  
'Cause our love has never changed  
But all the little things keep piling up  
And life keeps getting in the way[Chorus:]  
Don't make it harder than it is  
We both knew it'd come to this  
Better now than in a year  
More nights of tears and we both hate each other  
The fuse is already lit, so how about a final kiss  
And just let it go  
And stop the madness before it explodes  
Before it's out of our control  
Let's stop the madness before it explodes  
We gotta let it go  
Before it all explodes[Bruno Mars]  
Somethings we won't understand  
And we're both so tired of being misunderstood  
So let's just turn around and walk away  
And hold on to what was good[Chorus (Charice & Bruno Mars) ]There ain't nothing that can save us  
But you're close to the edge  
And what's the use of going on,  
If we're lying to each other  
Every word that is said  
Its too late for us now  
Cause we can hear the count down  
Its getting close, its gonna blowAnd stop the madness before it explodes  
Before it's out of our control  
Let's stop the madness before it explodes  
We gotta let it go  
Before it all explodesWe gotta stop the madness
