# Without You

## Kayne

Cause girl Without You
All this is pointless
Don't matter bout the fast cars, money or success
It's breaking my heart too
Live or Without You
Forget about the hard times
Follow the break up

Baby girl
I just can't live my life without you
I'm so used to you I know everything about you
I'll understand if you wanna forget
But later on down the line, I know you'll regret it
Come on baby don't make the end
I don't wanna go back to just being your friend
We gotta stick together
We gotta stay strong
No more argueing about whos right and whos wrong
Na, that's so long
In my heart is where you belong
When you stare in my eyes you make me smile
Come on girl let's make this one worth while
Up in the club, I'm rolling in
You caught my eye with your cheeky grin
Beautiful image is what you showed
Stay with me don't leave
Cause girl Without You

Cause girl Without You
All this is pointless
Don't matter bout the fast cars, money or success
It's breaking my heart too
Live or Without You
Forget about the hard times
Follow the break up
Cause baby my heart won't beat Without You
No baby my heart won't beat Without You
Oh baby my heart won't beat Without You

And baby my heart won't beat Without You

Okay,
As I turn to myself that I see
All the things that I done to hurt you
Yeah I know that I don't deserve you
Take a seat and sit down and review
There are things we both need to change
And I know that change can be strange
But deep down you know that were worth it
Baby girl no one is perfect

I want you
I need you
So please don't play no games with me
I want you ooh
I need you ooh
So please don't play no games with me

Cause girl Without You
All this is pointless
Don't matter bout the fast cars, money or success
It's breaking my heart too
Live or Without You
Forget about the hard times
Follow the break up
Cause baby my heart won't beat Without You
No baby my heart won't beat Without You
Oh baby my heart won't beat Without You
And baby my heart won't beat Without You

I've opened my eyes and now I see clear
Remembering the days when I she'd a tear
Text messages, calls on the phone
I just can't get you out of my zone
Oh oh oh no
Oh oh oh no
We should give this one more go
Oh oh ohhhh

Cause girl Without You (As I turn to myself I see)
All this is pointless (All the things that I done to hurt you)
Don't matter bout the fast cars, money or success
(Yeah I know that I don't deserve you)
It's breaking my heart too

Live or Without You
Forget about the hard times
Follow the break up
Cause baby my heart won't beat Without You
No baby my heart won't beat Without You
Oh baby my heart won't beat Without You
And baby my heart won't beat Without You
