Yea Yea Tee Dreads and
Eh e eh eh
You and I can make the World a better place

You and I can make the world a better place
You and I can work together and build the future
Make it better

Oh oh oh we are the future
We are the future

Verse 1
Many land,many nations,many people, many resources
We can change the world in what we do
Join our hands and work together
We can make money,we can save a life
When we believe in better tomorrow

Chorus
Oh oh oh we are the future
We are the future

Verse 2
Many tribes,many colour,many culture,diversity
Hiv,cancer o,people suffering, people dying
Let's do our best to help the weak
And save the world,make it better

We are the future

Let's put smiles on someone's face
We are the future of tomorrow

You and I can make the world a better place

You and I can work together and build the future
Make it better

Oh oh oh we are the future
We are the future
