

# Annihilation Of Hammerfest

## Amon Amarth

All is lost and foreign kings  
Rule the northern realms  
Hammerfest, the last outpost  
Has fallen to unbearded men  
Lords of the bloody cross  
Deceived or murdered all of true faith  
Now the temple of Thor  
Where Mj?lner is kept, is under siege  
They fear the power of Mj?lner  
The hammer of Thor and all their efforts  
To destroy it have failed  
From deep within the frozen ground  
Comes a rumbling sound  
Ravens scream and wild wolves howl  
Sending shivers down christened spines  
As if from nowhere  
Dark and grim he appears  
The warlord of the gods comes with force  
To retrieve the crusher  
The first man died with a gurgling sigh

When his head was crushed  
Painful surprise within his eyes  
As his life was snuffed  
With raw and brutal force  
The warlord brakes the temple doors  
The weak back off in fear  
On the altar it lies, he lifts the hammer high  
And before it he swears  
Allvise Ygg, M?ktige H?rjafader  
Gudar av Asars och Vaners ?tt  
H?r mina ord, n?r som jag sv?r  
Att om tusen vintrar ?ter ta v?r r?tt  
While he speaks his prayer  
Mj?lner rests in the air as if holding its breath  
Frozen by fear, the gathered stand and stare  
And what they see is death  
A laughing cry fills the shivering night  
He lets the hammer strike

A bolt of lightning bright rips the darkened sky  
Fire of doom ignite
