

The Noise

[Chris Ayer](#)

I can't sleep at night
The noise, the noise
My eyes, they open wider
The noise, the noise
I came to relate
The noise, the noise
Help me compensate for
The noise, the noise But I wouldn't do anything
The thundering that throws me away
I wouldn't do anything I won't go to church
The noise, the noise
The preacher wouldn't care for
The noise, the noise
I don't know what's real from
The noise, the noise
I can't hear a thing for
The noise, the noise
The noise... But I wouldn't do anything
The thundering that throws me away
I wouldn't do anything
The something that keeps me away
I wouldn't do anything
Something that begs me to stay
I wouldn't do anything
Something that throws me away
