

Tongue

Saliva

All this time I believed your lie
Raised your flag deep within your sight
I raise my flag to all you hide and drive
Your spike within me within you, within me
What makes you think I wanna know
It makes your life worth living
What makes you think I wanna know
It makes your life worth living
All this time I believed your lie
And raised your god deep within your sight

I raise my glass to all you guys who drive your
God from nothing from nothing means nothing
What makes you think I wanna know
It makes your life worth living
What makes you think I wanna know
It makes your life worth living
Promises you made me all this is apology
So sick of lies don't wanna know
Go and tell somebody else I say
