

# Your Angel

## Sarah Peacock

I can see the ocean in your eyes.  
Reaching as far as the open sky.  
I can taste the teardrops on your face  
Softly they puddle in this place.

### CHORUS:

Kiss me all night. Say it's alright.  
Hold me so tight. Bathe in the moonlight.  
And please let me be your angel baby.  
And I will love you always.  
And I swear with all that I have.  
That you would never be alone.  
If I was your angel.

I could spend forever going nowhere.  
Running my fingers through your hair.  
I could spend a lifetime in your smile.  
Growing old and grey all the while as you

### CHORUS:

Kiss me all night. Say it's alright.  
Hold me so tight. Bathe in the moonlight.  
And please let me be your angel baby.  
And I will love you always.  
And I swear with all that I have.  
That you would never be alone.  
If I was your angel.

### INSTRUMENTAL BREAK

### CHORUS:

Kiss me all night. Say it's alright.  
Hold me so tight. Bathe in the moonlight.  
And please let me be your angel baby.  
And I will love you always.  
And I swear with all that I have.  
That you would never be alone.  
If I was your angel.  
Oooh, if I was your angel.
