Knee Deep

Big Wreck

Knee DeepMake love by the window
With the toffs
Before you can jump
I'll push you off
And I'm knee deep with no sleep at all
When you're on my shoulder
I'm knee deep and I can't sleep it offClench my fists
Bite my lip
'Til it goes away
And all this blood
And all these days
Dry up and blow awayLook over yonder in my past
Everything good will always pass
And I'm knee deep with no sense at all
When you're on my shoulder
I'm knee deep and I can't kiss it offClench my fists
Bite my lip
'Til it goes away
Madness comes
It always does
And always finds a waySadness comes
And always finds a wayUnderstand
And reprimand
When you're on my shoulder
But you'll always fly
Always fly away
Ya awayClench my fists
Bite my lip
'Til it kills the pain
And all this blood
All these days
Dry up and blow awayAll my past
All my hate
Always finds a wayAlways finds
Always finds a way
