The Evolution Of Man

Example

I'm the super control freak
And I make it look so sweet
But I lost control of myself
I lost control of myselfNever remain to defeat
Always tryin' to compete
But I just defeated myself
Just defeated myselfOh, oh how the mighty have fallen
Oh what an end to the story
I never thought I'd seeing myself so lonelyIt's better better
It's better better
It's better better that you didn't know the truth
I'm getting better
I'm getting better
I'm getting better and I wish I could show the proof
I'm better better
It's better better
It's better better that you didn't know the truth
I'm getting better
I'm getting better
I'm living biggerIt all appear to be so rosey
To everyone who knows me
But I lost control of my health
I lost control of my healthAnd though you have disowned me
You were the only one who showed me
I've fallen off of that shelf
And I just repeated myselfOh, oh how the mighty have fallen
Oh what an end to the story
I never thought I seen myself so lonelyIt's better better
It's better better
It's better better that you didn't know the truth
I'm getting better
I'm getting better
I'm getting better and I wish I could show the proof
I'm better better
It's better better
It's better better that you didn't know the truth
I'm getting better
I'm getting better
I'm living biggerI gave up one day

Such a stop one day
I would stop one day I was fallen
I wake up one day give a fuck one day
I'm in love 'cause I hear you calling
Nothing I can say to make you understand
I guess I just have to call it the evolution of man
The evolution of man
The evolution of manIt's better better
It's better better
It's better better that you didn't know the truth
I'm getting better
I'm getting better
I'm living biggerI gave up one day
Such a stop one day
I would stop one day I was fallen
I wake up one day give a fuck one day
I'm in love 'cause I hear you calling
Nothing I can say to make you understand
I guess I just have to call it the evolution of man
The evolution of man
