

# Goodbye Is Just Another Word

## Lobo

(Lobo)

If the time should ever come  
That you feel our race is run  
And you're old brass bed's the only  
thing that we share  
If you think our ships come in  
Let's just break it off my friend  
Cause nothings worse than playing like you care.

There's nothing that's so final about leaving  
Even though I know that's what you've heard  
Just like forgive, forget and try again  
Goodbye is just another word.

If you feel the time is right  
And you sneak off in the night  
And live out all those stories in your head  
When your shiny knight goes home  
And you're left there all alone  
And you need a friend remember what I said.
