Figure 8

Trust Company

See that face from across the room
And I can feel you're nothin'
Show your fear it's not hard to see
Intentions pale it's blindin'
Stop stop from the place I've been
No good for the shape I'm in
I'm slow to the race you win
You wanna take me out
Stop stop with your face off in
My space and the wicked descend
No taste for the place I'm in
You need to stop stop
I am all you need to know
And I'm everywhere you go
No one can save you now
When it all comes around
And I'm everything you see
And I'm what you'll never be
No one can save you now
When it all comes around
Show your face and stare at me
And I can feel you glarin'
Showing up and preparing me
And you're the one I'll bury
Stop stop from the place I've been
No good for the shape I'm in
I'm slow to the race you win
You wanna take me out

Stop stop with your face off in
My space and the wicked descend
No taste for the place I'm in
You need to stop stop
And I'm all you need to know
And I'm everywhere you go
No one can save you now
When it all comes around
And I'm everything you see
And I'm what you'll never be

No one can save you now
When it all comes around
Take you down
Leave you falling
Faceless hurt and leave you down
Fall
Break you now
Leave you falling
Faceless hurt and take you down
Wanna take you down
I'm all you need to know
And I'm everywhere you go
No one can save you now
When it all comes around
I'm everything you see
I'm what you'll never be
No one can save you now
When it all comes around
