

# Closer (feat. Lester Duval)

## Alfa Mist

[Verse 1: Alfa Mist]

Step away from the madness

Breathe the cold air deep in my lungs and submit to the sadness

Commit to withdraw from the battle

Gotta jump shit and hope that I land in the saddle

Handle my heart or wear my heart on my sleeve

But I'm never really sure of what I hope to achieve

And I never felt the cool from the rope of release

[?] like dope to a fiend

So far the roadâ€™s been open and free

There were a couple of tolls, I've had a couple of fees

Couple of times Iâ€™ve been on a couple of knees

Wishing for a couple of hours or even minutes of peace

Head spinning from the turbulent sea

Scanning the horizon for a little faith in my breed

Placing my feet among the space Iâ€™m making my sleep

Hoping the path Iâ€™m on is really destined for me

[Hook: Alfa Mist?]

Why do we go far?

Why do we go?

When we're just tryin to get closer

Tell me, why do we go far?

Why do we go?

When we're just trying to get closer

Trying to get closer

[Verse 2: Lester Duval]

Iâ€™m wary I flirt

Iâ€™m here in a lurge

Meant to be clear in my head but Iâ€™m hearin the feds

Sirens, side effects have been in fear of the meds

Stay clear from the medics my peers werenâ€™t here when I bled

I donâ€™t want to years up the critic

Over beers and whether is come low searching for my turneress

Lost seaken knowledge with holes in my jean pockets

Donâ€™t want a clean office I know that Iâ€™ll see losses

But donâ€™t wanna leave profit â€˜less Iâ€™m feelin hot in this

Displaced where am I?

Here am I

Quiet wife mixphase we're aligned  
Just until whenever I get displaced I can make mixtapes on my mistakes and risk taken  
I knicked [?] but I misplaced him  
Here's the key to my heart but don't open it it's vacant  
I'm misplaced and home is a bit crazy

[Hook: Alfa Mist?]  
Why do we go far?  
Why do we go?  
When we're just tryin to get closer  
Tell me, why do we go far?  
Why do we go?  
When we're just trying to get closer  
Trying to get closer

[Bridge: Alfa Mist?]

Why do we go far?  
Trying to get closer  
Why do we go far?  
Trying to get closer  
Why do we go far?  
Trying to get closer  
Why do we go far?  
Trying to get closer  
Why do we go far?  
Why? Why?  
Tell me why do go far?  
Why do we go?

[Verse 3: Alfa Mist?]

I brought my mentals to all my friends' phones  
Never stay too close until I went home  
It's usual they view me at my funeral  
I'll make that walking dead pose  
I recluse but I've lived once I bought a red rose  
I've been loved only after I divorced my ex though  
I thought my head broke  
A so it when I forced my pimp love  
Nearly took her with me to a comic expo  
Tell em toby if you wanna lets go  
I promise I'll let go  
I said no see I wasn't feelin what she said  
I'll be a modern jazz artist competin with the dead  
She ahs my heart but I'm leading with my head  
So it's the matter of my mind that's defeating me instead

Is this the life I purchased, deny my service  
Am I while worth it?  
Ah gad I perfect despite my urges  
I create a rift couldn't say it when in fact I stay in drift  
And that's the way it is
