Fade Away

Jason Rubero

Come over here
Is there a place where we can talk?
You know the things that get you?
Well you know, they get to me too

But somehow it helps
If we can just cast off this dark world
And the weight
The weight

We talk for hours
And it all falls apart, fades away
Love storms the towers
And they all fall apart, fade away

Flying into Denmark
The water looks wet, but more like a wedge
That drives us apart
With you there in Queensland I'm feeling on edge

But somehow it helps
If I can just see the curve of this world
And know that it ends
And the miles
Oh the miles...

We talk for hours
And they all fall apart, fade away
Love shakes the towers
And they all fall apart, fade away

And you know that I only want to see you smile
(I held your hand dear)
And you know that I only want to see you smile
(I held your hand dear)
And you know that I only want to see you smile
(I held your hand)

We talk for hours
And it all falls apart, fade away

Love storms the towers
And they all fall apart, fade away

We talk for hours
And they all fall apart, fade away
Love shakes the towers
And they all fall apart, fade away
