

Are We Friends

Odonis Odonis

Don't wait for the execution
Another foregone conclusion

On how

You can give me oral
It might seem immoral
But...Are we friends x3

until the end

Friends

Are we friends x2

Until the end

Don't get too excited just yet

We'll all leave together

I hope jesus loves me
if not

Will just all ignore him

But...Are we friends x3

Until the endFriends

Are we friends x2

Until the endStep to left

Step to right

We'll all find out who's rotten or ripeStep to left

Step to right

We'll all find out what's what tonight

Tonight

You get to the final castle

And you burnt up all your bridges

Just one hand is not enough

To give yourself a hard on

but...Are we friends?
