Damned

William Control

Dance, dance, dance in the graveyard
Slow down, pretend to save your
Loneliness is free
Your lonely 'cause of mePeel back layers of hatred
Black eyes swollen and sacred
Dark skies fallen then taken
All because of meI sing for the damned
The soulless, hand in hand
When god has fucked a queen
What a sight, what smell
What a fucking sceneDance, dance, dance in the moonlight
Kill joy, pleasure for all time
His art shooting the sunshine
All because of me
