

# Take Me Somewhere Nice

## Mogwai

Ghosts in the photograph  
Never lied to me I'd be all of that  
I'd be all of that A false memory  
Would be everything  
My denial, my eliminent What was that for?  
What was that for? What would you do  
If you saw spaceships  
Over Glasgow?  
Would you fear them? In every aircraft  
In every camera  
And there's a wish that  
Wasn't granted What was that for?  
What was that for? Try to be bad  
Try to be bad
