

Who's Gonna Hold Me Down

[Keyshia Cole](#)

You know baby, i've been thinkng about the things we went through while we were together
And i can't believe were not together anymore
All the wonderful times we had
Kissing on the beautiful lips you had, yeah
I just gotta figure it out Who's gonna love me now?
Who's gonna hold me now, now that you're gone (long gone), away?
Who's gonna hold me down , now that your not around
Baby you're gone(long gone) away Yeah, i mean i love, i love you
I just don't know what to do anymore Rather you right here with me
Rather you givin' me all of your love
I don't want you givin' it all away
Oh, when i'm with you, my heart skips a beat
Oh, I want you back, i need you back
But i gotta get over you Who's gonna love me now? (who's gonna love me?)
Who's gonna hold me now (hold me now that) now that you're gone (long gone)?(baby you're away. Baby
you're gone gone gone)
Who's gonna hold me down(who's gonna hold me?) , now that your not around
Baby you're gone(long gone) away i mean like i said earlier, i was thinking about the things we went through
while we were together
And i can't believe were not togther anymore
I mean all of the things i delt with, all the times i took you back
And now you're not with me anymore? Really?
How did you turn this all around on me?
But it's all good. I been all good
I just gotta figure it out Who's gonna love me now?
Who's gonna hold me now, now that you're gone (long gone)?, away
Who's gonna hold me down , now that your not around
Baby you're gone(long gone) ,away oh your gone away, long gone i guess you gotta let that go
if it ain't yours, it ain't yours, you gotta let it go
i know it's hard, but you can do better
let's go.....
