

# Happy Now?

## Stretch Princess

Oh my heart is heavy now and I feel a little cold  
Oh I know Ive heard your words before  
Should they bother me at all? And Im here for you and you want me to be  
Things youll never be but youre tired of the feeling  
And your words will set you free Oh, was it hard for you to say it?  
And the world wont keep waiting to turn you around  
I cant keep us together or happy now  
Are you happy now? Could you do you feel a little closer?  
Should I be a little high?  
Id give you everything and a little more  
If they were only mine And Im here for you and you want me to feel  
Things youll never feel, youre tired of my dreaming  
And your words will set you free Oh, was it hard for you to say it?  
And the world wont be waiting to turn you around  
I cant keep us together or happy now  
Are you happy now? And the world wont be waiting to turn you around  
I cant keep us together or happy now  
And if you needed what you wanted, would it pull you apart?  
Are you half broken hearted or are you happy now?
