

# Invaders

## Dropa

Verse 1:

It was in the evening, or was it afternoon  
It doesn't really matter, they were in my room  
No there no here to save youx3

No there not

Chorus:

One by one

They tricked me one by one  
They stripped me one by one  
They fixed me one by one  
Invaders picked me

Verse 2:

I thought that I should go now but I just had to stay  
Stick around and listen to what they had to say  
No we're not going to hurt you

x3

No we're not

Chorus

Change:

Ohhhh, arrggghhh, oohhh

Invaders, Invaders, Invaders, Invaders.....

Ooh, I like their eyes, like buggy flies

Their purple skies, where no one dies,

Their silken hair, and what they wear

Without a care for nothing

Say that you care but you fucking don't

And you say that you care but you fucking don't

And you say that you care but you fucking don't

And you say that you care but you fucking don't

Bah, bah, bah, bah, bah, bah, bah, bah, bah..... etc.

Backing: Watch out for invaders...
