

# Deep Water

## The Selecter

I'm drifting in deep waters  
Alone with my self-doubting again  
    Try not to struggle this time  
    For I will weather the storm  
I gotta remember, don't fight it  
    Even if I don't like it  
    Somehow turn me around  
    No matter how far I drift  
Deep waters won't scare me tonight
