## Smashing Pumpkins

Fallen lovers and useless friends  
Must you glare?  
As life uncovers our unions pulled threadbare  
Pleasure taps its vein  
Ive been hungry and Ive been full  
And Ive been sated some more  
I used to know what for  
I used to know  
All hours look the same  
I used to know  
What a wish was for  
Magic plumes my soul  
Pyramids for sale  
Full moons on the rail  
Pipers play for dawn  
Hypnotized, unwind these lines around my head  
Whats left for me to leave for you unsaid?  
You cant fill with dread  
Ive been hungry and Ive been full  
Molten at the spoke  
I used to know what for  
I used to know what for  
La-la-la-la-la  
A pluck on spiders strings  
Gutters form the stars  
Children cry out proud  
As embers blast my heart  
Broken where Id stop  
I used to know  
What a wish was for  
I used to know  
What a wish was for  
Stolen like a lark  
Flicks on tender wrists  
Abuse the modern mind  
Crush on what youll find  
La-la-la-la-la
