Psycho

Token Entry

Psycho

Dogs in a fight in the dead of the night
bums in the street sprawled at your feet
creeps in the shadows staring at you
walking down broadway with nothing to do

Ladies in leather selling their wares
old man is bleeding and nobody cares
nickles and dimes signs of the times
stalking for new meat on forty second street

Every tourist is a sucker a dumb motherfucker
young girls that don't know are sucked into porno
couples pass under the movie marquees
blindly in love unaware of the sleeze

Reading the neon lightning times square
watching the people they seem unaware
what a site forty deuce at night
inaanity rules challenged by fools
