

# Half Enough

[Lorrie Morgan](#)

I wish there was a big room somewhere  
And they kept all the time in there  
All the time that got away somehow  
And I wish there was a way I could get it back now Startin' right at the day  
When you looked at me that way  
The way you smiled when you said my name  
I could see my life would never be the same And I knew nothin' I could say or do  
Would come close to thankin' you for your love  
And I could try for the rest of my life  
But that wouldn't be half enough Through all the crazy years  
I turned around and you were here  
Sweeter than my wildest dreams  
Yeah, you showed me what true love means And I knew nothin' I could say or do  
Would come close to thankin' you for your love  
And I could try for the rest of my life  
But that wouldn't be half enough And I knew nothin' I could say or do  
Would come close to thankin' you for your love  
And I could try for the rest of my life  
But that wouldn't be half enough  
And I could try for the rest of my life  
But that wouldn't be half enough Half enough, half enough  
It wouldn't be half enough  
Half enough, half enough  
It wouldn't be half enough Half enough, half enough  
It wouldn't be half enough  
Half enough, half enough  
It wouldn't be half enough Half enough, half enough  
It wouldn't be half enough  
Half enough, half enough  
It wouldn't be half enough
