

Give It All

Right The Stars

I'm up against your open door
You're on the phone
You're on the floor
You're counting stars
You laugh and cry
It's getting dark
You don't know why
I built a bridge to every side
You light a match
The river's wide
You only want what's out of reach
But you can't help holding on to me And I give it all
I give it all
I give it all to you
I give it all
I give it all
I give it all to you You open up and then you close
And where you hide I never know
And we hate the games, though we love to play
Rewrite my words
You run away But I give it all
I give it all
I give it all to you
I give it all
I give it all
I give it all to you And what can I say that you can hear?
"Don't be afraid," my line to you And I give it all
I give it all
I give it all to you
I give it all
I give it all
I give it all to you
