

Maybe Mine

Good Old War

I've been chasing you around
When I go up, you're down
I'm tired of fooling around
Hope you're life is better now You want to run from...
I can't give up on...
all of my dreams
Hope they don't leave me too
How long will it take? I already said, "I do"
I liked myself with you
but you think it's worthless for whatever reasons All of my friends
Hope they don't leave me too
How long will it take
for you I have been here
and you've done what you want
Call if you want to
hide when you don't
I don't care All of your dreams
Hope they don't leave you too
And when no one else sees
I see only you
How long will it take?
