In the Middle

Sugababes

I'm caught up in the middle
Jumping through the riddle
I'm falling just a little tonight, uh uh'Cause everybody's making trouble
Someone's burst their bubble
But we'll be getting by alright, uh uh uhI'm caught up in the middle
Jumping through the riddle
I'm falling just a little tonight, uh uh'Cause everybody's making trouble
Someone's burst their bubble
But we'll be getting by alright, uh uh uhSooner or later this drunken elevator
Is gonna stop where I'm supposed to be
It's ten past eleven, I'm half way up to heaven
But I'm stuck in realityNight's kind of funny, not in there for the money
But I know that I've got to pay
Love's gonna get you but only when I let you
And I don't wanna turn awayWhy can't the boys be the toys
That the girls want the boys to be
And why can't the girls see the world
That the boys want the girls to see, yeahI'm caught up in the middle
Jumping through the riddle
I'm falling just a little tonight, uh uh'Cause everybody's making trouble
Someone's burst their bubble
But we'll be getting by alright, uh uh uhMidnight is on the low
No front just sing the flow
We're speaking all in code
To get to the place we knowSweat running down my back
I'm wearing leather black
Falling into a trap
There is no turning backI got my ladies with me
Fellas get cool and freaky
But we've gotta keep them tamed
'Cause we don't wanna play that gameEverybody from the block
Needs to break free tonight
It ain't no weakest party
Buckle up, enjoy the rideWhat you see and what you hear
Can never be exposed
Acting out of character
Is everything we knowI'm caught up in the middle
Jumping through the riddle
I'm falling just a little tonight, uh uh'Cause everybody's making trouble

Someone's burst their bubble
But we'll be getting by alright, uh uh uhI'm caught up in the middle
Jumping through the riddle
I'm falling just a little tonight, uh uh'Cause everybody's making trouble
Someone's burst their bubble
But we'll be getting by alright, uh uh uhMy mind's kind of tender, my body's tired
It's freaky but I'm ready for this bumpy ride
Everybody's tripping, it's all insane
But the voices in my head are saying it's okayTrying to slow it down, I race against the rush
Gotta keep it cool to avoid the crush
Adrenaline is spinning and it's starting to show
That I've moved it on 'case I've changed the flowI'm caught up in the middle
Jumping through the riddle
I'm falling just a little tonight, uh uh'Cause everybody's making trouble
Someone's burst their bubble
But we'll be getting by alright, uh uh uhI'm caught up in the middle
Jumping through the riddle
I'm falling just a little tonight, uh uh'Cause everybody's making trouble
Someone's burst their bubble
But we'll be getting by alright, uh uh uhBut we'll be getting by alright, uh uh uh
But we'll be getting by alright, uh uh uh
