

Let It Die

Ozzy Osbourne

I'm a rock star,
I'm a dealer,
I'm a servant,
I'm a leader,
I'm a savior,
I'm a sinner,
I'm a killer,
I'll be anything you want me to be Silent
As a witness,
Make your heart race
With a death kiss,
I'm a soldier
In a blood war
In the Peace Corps,
I am everything you'll ever be A loser,
Number zero,
Play the victim,
End up a hero,
I'm a teacher,
Preacher,
Liar,
I am anything, everything Mover
And a shaker,
The oppressor,
Stimulator,
I'm a coward,
I'm a fighter,
Yeah I'm everything,
You are me,
I am you Everything is breaking,
No mistaking,
It's all changing,
Tear it down,
Watch it all start burning All that's done is done, yes,
Let it lie It's a revelation,
Celebration,
Graduation,
Times collide,
Watch the world awaken All the past regrets from days gone by,

Let it go,
Let it dieIt's a new day
For the faceless,
Take the torches
From the useless,
First amendment,
Second guesses,
All dependent,
I'll do anything to help youFallen crosses,
New alliance,
Deeper thinkers,
Modern science,
Open guest list,
All inclusive,
No one loses,
Everything you've always wantedHonest answers
For the bruises,
Full disclosure,
No excuses,
Open handshake,
Clean slate,
No hate,
Living history,
MiseryInformation,
Revolution,
Loading up for
Execution,
Push the button,
Pull the trigger,
YeahI'm everything,
You are me,
I am youEverything is breaking,
No mistaking,
It's all changing,
Tear it down,
Watch it all start burningAll that's done is done, yes,
Let it lieIt's a revelation,
Celebration,
Graduation,
Times collide,
Watch the world awakenAll the past regrets from days gone by,
Let it go,
Let it die,Everything is breaking,
No mistaking,
It's all changing,

Tear it down,
Watch it all start burningAll that's done is done, yes,
Let it lieIt's a revelation,
Celebration,
Graduation,
Times collide,
Watch the world awakenAll the past regrets from days gone by,
Let it go,
Let it die
(Die, die, die, die, die, die, die)
