

Learn The Hard Way

Nickelback

Hey, there little darling
Where'd the old man go?
Why don't we get out of town
And do it all night long?
And we can lie out in the field
Till the morning light
Then me and your old man
Are gonna have to fight
Start the loving in the truck
And wind up in the ditch
Then The old man will come a runnin'
With a hickory switch
Oh, no, gotta learn this someday
Why I gotta learn the hard way?
Buddy showed me just
How fast a car can go
I'll race you for your pink slip
Right before this show
Put your girlfriend in the bet
To make things good
'Cause, she's been staring at me
Like no girlfriend should
Bastard's sitting right there

On the starting line
Stuck the sugar in your gas tank
By myself last night
Oh, no, gotta learn this someday
Why I gotta learn the hard way?
Hey, there little darling
Where'd the old man go?
Why don't we get out of town
And do it all night long?
And we can lie out in the field
Till the morning light
Then me and your old man
Are gonna have to fight
Start the loving in the truck
And wind up in the ditch

Then the old man will come a runnin'

With a hickory switch

Oh, no, gotta learn this someday

Why I gotta learn the hard way?

Oh, no, gotta learn this someday

Why I gotta learn the hard way?
