Complicated

Face to Face

You're never going to see what you like
You're never going to wake up and change your mind
You're never going to keep what you hold
You won't accomplish anything on your ownYou can't have what you wanted
You can't have what you wanted
You can't have what you wanted
You can't have what you wanted
So make up your mind, come to your sensesYou'll never win if you don't bend
It's not so complicated
If you decide to change your mind
You'll find your inundatedYou're never going to do what you say
You'll always try to make up another way
You're never going to act on your own
You're never going to see that you're all aloneYou can't have what you wanted
You can't have what you wanted
You can't have what you wanted
You can't have what you wanted
So make up your mind, come to your sensesYou'll never win if you don't bend
It's not so complicated
If you decide to change your mind
You'll find your inundatedAnd so you're here and you don't know
If you can choose the way to go
It's not about the way it is
Don't become a realistYou've got time to make a choice
Don't think aloud but have a voice
And when you think the time is right
Don't ever be afraid to fightYou'll never win if you don't bend
It's not so complicated
If you decide to change your mind
You'll find your inundatedYou'll never win if you don't bend
It's not so complicated
If you decide to change your mind
You'll find your inundatedYou never gonna see what you like
You never gonna wake up and change your mind
