

# It's Been a Long Time Coming

Tom Jones

For as long as I can't remember  
It's been struggled and worried everyday  
It's been a long time coming  
I say, it's been such a long time coming  
But good things are gonna come my way I work so hard and I put it on my house  
Just to make myself a few dollars everyday  
It's been such a long time coming  
Baby, it's been such a long time coming  
But good things are gonna come my way Never met a girl who loved me  
I spend so many lonely nights  
But then one day, girl  
You came along  
And every little thing is gonna be alright I try so hard to make you feel so happy  
I'm gonna do any little thing to make you stay  
Baby, it's been such a long time coming  
I never thought it would come  
But it's been such a long time coming  
But good things are gonna come my way
