

Love Is the Most High

Fortunate Youth

Oh As the sun goes down ;said now under the sea,
its like a long distance love that you hate to watch her leave.

But. when it goes down you oh just look around
you see that your love is no where to be found

But.. If its goes away let it come back soo high
oh i want to hear it all my time

Said now, say come again ohh until
unfortunately it fall yes they give me love
ohh till im loven all in all

Yes they come again until fortunately it rise
love is the most high i'm cry thru the night

Said love is the most high
oh love is the most high YEAH

Something wrong in the middle of the night ohh
they say that love is something like you dont seem right

Its like the little sickness got me fear'in more and more.
Let this fever take me home because i can not take no more

So just put me down in this ground right now oh
if living with is not living somehow

Oh let your loven come and let it pound on my door oh
now give me love oh please want ; More

Said now, say come again ohh until
unfortunately it fall yes they give me love
ohh till im loven all in all

Yes they come again until fortunately it rise
love is the most high i'm cry thru the night

Said love is the most high

oh said love is the most high yeah!!

Oh let it rain let it rain
Let it fall on me oh let it pound all over this ocean
far as my eyes can see

Oh Let it rain let it rain
let it fall so high
Oh my love is your dead sea
I wana taste your ecstasy

Said ahh there's a storm coming over head tho oh
don't know if i want to sink or swim its what i dread

But maybe one time if you love is on the way
let it pound all over these Levy i just want to

Said im looking up while the rain the rain
oh now wash away my love is gone now

Let it go and let it come back so right
ahhh i wana hear it all my time

Said now, say come again ohh until
unfortunately it fall yes they come and give me love
ohh till im loven all in all

Yes they come again until fortunately it rise
love is the most high i'm cry thru the night

love is the most high
oh said love is the most
love is the most high
oh said love is the most high mhmhmm
