

Drunken Third

Hot Water Music

2: 30 is lucky its late
i'm still thirsty
the band is still playing
we're amped and still waiting
lots of talk
lots of plans
lots of everything
(still waiting)
lots of people letting politics control the scene...
and who's listening it's time to take our place
lock ourselves stand together accept the other face
load ourselves we can't break this we're not done yet
i can see a stand if we learn how to know how to let it go
feels good connecting with the union all singing
full hearted frustrated but backed up by my friends
gotta try
gotta fight
gotta never quit
you're forgetting why we're here
and what we're fighting for
and who's listening LOCK ON
