

From the Very Start

Bellarive

Before there was time
Long before sunsets
You plan for us all
To be free Before all the stars
Were given their brightness
You purposed our souls
For Your glory
Your glory From the very start
you held my heart
from the very start
you held my heart Long before sin
You felt of redemption
To cover our sin
Jesus blood
Bury with Christ
We rise as your children
Brought to the light
By the sun
The sun From the very start
You held my heart
From the very start
You held my heart x2 Instrumental Your love was there
Your hope was there
Your grace was there
Always Your love was there
Your hope was there
Your grace was there
Along Always
Along
Along (always there)
