

# If I Should Die Tonight

Marvin Gaye

Oh, if I should die tonight  
Oh baby, though would be far before my time  
I won't die blue, sugar, yeah  
'Cause I've known you Oh, oh, how many eyes  
Have seen their dream?  
Oh, how many arms  
Have felt their dream?  
How many hearts, baby  
Have felt their world stand still? Oh, millions never, they never, never  
And millions never will, baby  
They never will If I should die tonight love  
Darlin', it would be far before my time  
I won't die blue  
'Cause I've known you I'm so grateful baby, grateful that you're lovin' me  
My desire  
Is to love you 'til  
I'm no longer here and never tire  
You always been so good to me, me now  
I'm so thankful Oh, oh, how many eyes  
Have seen their dream?  
How many arms  
Have felt their dream?  
How many hearts, oh darlin'  
Have felt their world stand still? Oh Lord Oh, millions never, no, never, never  
And millions never will, sugar  
They never will If I should die tonight, ah baby  
I just want you to keep this one thought in mind  
That I would never die blue  
'Cause I've known you, oh
