

Execute Them All

Unleashed

As my final call
Sounds the charge
...to war I hate the universe and everything inside
I detest all I see, nothing pleases my mind Execute them all
It's my final war I hate the sight of you, fashion fake
Joke
I detest every man who cannot stand
Alone Execute them all
It's my final war As my final call
Sounds the charge
...to war I hate the tales you tell, I don't
Believe a word
I detest the stuff you sell, I'll hunt
You around the world Execute them all
It's my final war When my days are numbered you'll hear
My final call
I'll take their lives away, I'll execute
Them all Execute them all
It's my final war Execute them all
It's my final war
