## **Execute Them All**

## **Unleashed**

As my final call Sounds the charge ...to warI hate the universe and everything inside I detest all I see, nothing pleases my mindExecute them all It's my final warI hate the sight of you, fashion fake Joke I detest every man who cannot stand AloneExecute them all It's my final warAs my final call Sounds the charge ...to warI hate the tales you tell, I don't Believe a word I detest the stuf you sell, I'll hunt You around the worldExecute them all It's my final warWhen my days are numbered you'll hear My final call I'll take their lives away, I'll execute Them allExecute them all It's my final warExecute them all It's my final war
