

Ballad of Dwight Fry

Alice Cooper

{ Mommy, where's Daddy?
He's been gone for so long
Do you think he'll ever come home? } I was gone for fourteen days
I coulda been gone for more
Held up in an intensive care ward
Lyn' on the floor I was gone for all those days
But I was not all alone
I made friends with a lot of people
In the danger zone See my lonely life unfold
I see it every day
See my only mind explode
Since I've gone away I think I lost some weight there
And I, I'm sure I need some rest
Sleepin' don't come very easy
In a straight white vest Should like to see that little children
She's only four years old, old
I'd give her back all of her play things
Even, even the ones I stole See my lonely life unfold
I see it everyday
See my lonely mind explode
When I've gone insane I wanna get out of here
I wanna get out of here
I, I, I gotta, I gotta get out of here
I, I gotta get out of here
I gotta get outta here, I gotta get outta here, I gotta get outta here
I gotta get outta here
Ya gotta let me out of here
Let me outta here
I gotta get outta here
Let me outta here
I gotta get outta here
Gotta get outta here, I gotta get outta here, I gotta get outta here
I gotta get outta here See my lonely life unfold
I see it everyday
See my only mind explode
Blow up in my face I grabbed my hat and I got my coat
And I, I ran into the street
I saw a man that was choking there
I guess he couldn't breathe Said to myself, "This is very strange

I'm glad it wasn't me"
But now I hear those sirens callin'
And so I am not freeI didn't wanna be
I didn't wanna be
I didn't wanna beSee my lonely life unfold
See my lonely mind explode
When I've gone insane
