

Lipstick (feat. Pitbull)

Sophia Del Carmen

Mama got some new tricks
Turn you on electric
All I need to know is
Where you want my lipstick
Where you want my lipstick Don't you wanna wake up wearing nothing but my fingerprints
You won't forget me when you sleeping with the evidence
I'll leave my traces all over your body
No hay nada mas rico
Que el bombon latino
Ooh la la la la la la
Ooh na na na na na
Ooh la la la la la la After tonight
You'll never be the same again
Once you know what it's like
You're gonna wanna do it again and again After tonight
You'll never be the same again
Once you know what it's like
You're gonna wanna do it again and again and again Mama got some new tricks
Turn you on electric
All I need to know is
Where you want my lipstick Mama got some new tricks
Turn you on electric
All I need to know is
Where you want my lipstick My lips'll take places you ain't even dreamed to see
But if you want my love
Gotta give me everything
I'm like an army, nobody can stop me
No hay nada mas rico
Que el bombon latino
Ooh la la la la la la
Ooh na na na na na
Ooh la la la la la la After tonight
You'll never be the same again
Once you know what it's like
You're gonna wanna do it again and again After tonight
You'll never be the same again
Once you know what it's like
You're gonna wanna do it again and again and again Mama got some new tricks
Turn you on electric

All I need to know is
Where you want my lipstick
Mama got some new tricks
Turn you on electric
All I need to know is
Where you want my lipstick
I kill all the women on how it's done
I'm highly educated, y'all gon' learn
Pits speaks as the world turns
These boys think they had money to burn
Keep me in the zoomers all in the class,
Fake one I'm calling the map
Bad words bring in the mouth
Hit after hit I'm bangin' the mass
Sophia Del Carmen, ya tu sabes la jugada
Take it to the South
I'm feeling like Diddy
Can't stop, won't stop
Let me get a little kiss
Lipstick, red hot, that's right
After tonight
You'll never be the same again
Once you know what it's like
You're gonna wanna do it again and again
After tonight
You'll never be the same again
Once you know what it's like
You're gonna wanna do it again and again and again
Mama got some new tricks
Turn you on electric
All I need to know is
Where you want my lipstick
Mama got some new tricks
Turn you on electric
All I need to know is
Where you want my lipstick
