Be There with You

Human Nature

I never cared for simple words of tenderness
I never thought my life could be as sweet as this

But now I know, I want to spend it all with you, babyI drive my car and think about you constantly
I lie awake and I want to feel you next to me

What can I do? My life's only complete with you, baby
Oh don't you knowYou are the one I treasure
A part of me foreverAnd I'll be there with you

Whatever you do

With all of my heart I promise you
I'll be there with youJust know that it's true

With all of my heart I'm there for you

Wherever you go I'll be there

Whatever we're up against

Just know that I'll be there with youYou're like the sun that brightens up the darkest skies

The only one I'm seeing when I close my eyes

Oh can't you see, you'll never be alone again, baby

Don't you knowYou are the one I treasure

A part of me foreverYou're like the sunrise I've waited to see

A beautiful moment always with me

I've waited a lifetime only to be, be with youYou're like the sunrise I've waited to see

A beautiful moment always with me

I've waited a lifetime only to be, be with you
